

### **Art & Design Key Stage 3**

Art and design is taught once a week within exciting and inspiring art rooms. Students are taught by the same teacher throughout the year at key stage 3.

Homework is set fortnightly, mostly within sketchbooks and it is an expectation that each task should take an hour to complete. Painting, printing and sculpture projects are set termly with a strong reference to the work of other artists, designers, crafts-people and cultures.

Dynamic observational drawing and the creative use of a wide range of technique process and media underpins the department's success and the progressive development of skill, knowledge and understanding.
