

Update on school funding

Dear Parent / Carer

Please find below a copy of a letter that will go to 100,000 parents and carers across West Sussex today.

[School funding update - parent / carer letter](#)

The letter confirms that school finances are still in a very bad state, even with the new National Funding Formula that starts in April 2018.

In summary, schools in West Sussex are still not being funded adequately or fairly and this will negatively affect your child's education. We are asking parents to contact their local MP in order to get improved basic funding for all our schools and to ensure more money goes to those with special educational needs.

Thank you for your on-going support.

Yours sincerley

Ms S Marooney
Headteacher
