Dear Parents and Carers

Your Energy Sussex schools offer

We have been advised of a new, local energy supplier set up by West Sussex County Council, Your Energy Sussex aims to encourage households to switch and save money. As part of their launch they are running the Your Energy Sussex schools offer which means residents in Sussex switching to this energy supplier before July 24 are able to nominate a West Sussex school to receive a £20 donation (£10 for a single fuel switch).

Your Energy Sussex is a partnership between West Sussex County Council and Robin Hood Energy, the not-for-profit licensed energy company owned and run by Nottingham City Council. It is supported by councils across Sussex, including East Sussex County Council and Brighton & Hove City Council. It is run on a not-for-profit basis, using any surplus to help local people who are struggling to pay their bills, and works hard to keep customers on its best available tariff.

Deborah Urquhart, county council cabinet member for environment, said 'the Your Energy Sussex schools offer is an excellent opportunity for residents, particularly those on expensive 'standard variable' energy tariffs, to save money off their own household bills while doing something positive to support their community.'

If you are interested in switching your energy supply to this new company then we would encourage you to do so before July 24 and request the donation is given to Durrington High School.

You can find out more about Your Energy Sussex, the schools offer and get a quote online at www.yourenergysussex.org.uk/schools If you would prefer to switch over the phone call 0800 952 0001, please quote 'WS Schools' and tell the customer advisor you would like Durrington High School to benefit from the donation.

Please also share this information with your family and friends in Sussex, as the more people that switch and nominate Durrington High School the more money we can raise for the school.

Yours sincerely

Ms S Marooney
Headteacher
