

DHS launches a new catering outlet –The Pod

Over the summer holidays we were delighted that Harrisons Catering Services installed a fantastic new purpose built catering outlet. The Pod serves hot and cold food and is a much bigger and improved replacement for the catering cart that was situated outside the hall. The Pod will allow more students to access their much needed sustenance quicker during break and lunch times.

The central location outside the LRA means The Pod is easy to locate and quick to get to from anywhere in the school. As with all 3 of catering outlets there is a great variety of menu options with a wide selection of healthy options. All the food is prepared on site by a team of dedicated staff led by head chef Michel Ravaudet.

Karen Jefford, Community and Enterprise Manager, said 'we are so pleased that Harrisons have invested in this new facility which means our students will have 3 excellent catering outlets to choose from all year round.'

The students have been enjoying using the new outlet during these first few weeks back with one saying ' I really like it, it's bigger than the old cart but smaller than the canteen and it looks really good.'
