

Dear all

We wanted to remind all of you that the Durrington Careers team are online and remain ready to support you and your children with their future plans. Whether it's a year 7 question about a dream job or a year 11 query about University, we are there to help. There are currently year 10 & 11 google classrooms open for students to get specific information and we will launch others as our regular programme progresses.

I can be reached directly at thenry@durring.com with any questions from students or parents.

Here are some online resources that may be useful in the coming months.

All Years - [Skills Builder Home Learning](#)

This gives a series of **free** online videos and guidance resources to build eight key skills that students at all stages need to succeed. Just choose the year group for your child and it will filter on the lessons that are best for them.

Y11 - [Weekend STEM Career Experiences](#)

These are run by UCL and InvestIN on weekend dates through the coming months. They are a series of online led programmes hosted by industry professionals to give guidance, work experience and application guidance to those interested in the professions. There is a cost to the programme but for those interested in these fields they may prove helpful. The fields are;

Investment Banking
Medicine
Engineering
Psychology
Computer Science
Architecture

Information and registration is through the above link.

All Years - [Success at Schools Resources](#)

Success at schools is a fantastic website which offers information to students and parents about careers. During this time they are making a lot of their resources available **for free** including subject guides.

Please get in touch with any questions.

Best Wishes

Mr Henry
DHS Careers Leader
