

06 October 2020

Dear Parent / Carer

**Year 10 parents' GCSE support -Core subjects**

Your child will be settled into their GCSE courses by now and we are keen that you are well equipped to support them and keep them on track throughout the next two years. Normally you would be invited to attend an evening with a series of presentations from our Core leaders. However, as we cannot invite you in physically, our leaders have recorded their presentations for you to view at your own leisure.

The presentations:

- The three core subjects (English, maths and science).
- The key methods of assessment that your child will undertake through the courses.
- Strategies for effective learning and suggestions on how to support your child with their studies.

In order to view the presentations, please make sure that the link is copied into a google Chrome browser.

English:
