

Update: Public health advice to minimise risk		
Theme	Guidance	ACTIONS
a requirement that people who are ill stay at home	Ensuring that students and staff do not come into school if they have COVID- 19 symptoms - high temperature, a new, continuous cough and a loss or change to your sense of smell or taste; or have tested positive in the last 7-10 days (see isolation rules below). Ensuring that anyone developing these symptoms during	Ongoing reminders to staff and parents.
response to positive cases	Positive students and staff may now take LFD tests on day 6 and day 7 of their self-isolation period. Day zero is the day their symptoms started or if they are asymptomatic the date of their first test (LFD or PCR). Those who receive two negative test results are no longer required to complete 10 full days of self-isolation. The first test must be taken no earlier than day 6 of the self-isolation period and tests must be taken 24 hours apart. If both these test results are negative, and you do not have a high temperature, you may end your self-isolation after the second negative test result and return to school following this if they are well and do not have a high temperature.	Parents can inform us of positive students using covid-19@durring.com and staff will report using absence procedures. Work will be available on Google classroom for students and companies can support in accessing this.
robust hand hygiene	Ensure that students clean their hands regularly with soap and running water or hand sanitiser when they arrive at school, when they return from breaks, when they change rooms and before and after eating.	Duty staff at sanitising stations at the end of break time.
use of face coverings for students and staff	Face-coverings should be worn by staff and students at all times around the premises in communal spaces and corridors. Until further notice face-coverings are recommended to be worn in classrooms by students. Face-coverings do not need to be worn by staff and students when outdoors on the premises. Face	This will be reviewed upon further guidance from the DFE and is a short term measure.
robust respiratory hygiene	Ensure enough tissues and bins available in the school to support students and staff to follow the "catch it, bin it, Kill it" approach.	

<p>always keeping occupied spaces well ventilated.</p>	<p>Increased ventilation levels in classrooms in school without compromising thermal comfort.</p>	<p>We will ask all staff to have at least one window open in their teaching base. We have CO2 monitors which we are using in classrooms to raise awareness of staff about how much ventilation is required. Students will be encouraged to go outside at breaks when conditions are favourable. Assemblies will only happen in a year group if cases remain at a low level and will not happen in the first couple of weeks of the Spring term.</p>
<p>enhanced cleaning arrangements</p>	<p>We have in place a cleaning schedule that ensures cleaning is generally enhanced and includes: more frequent cleaning of rooms/ shared area that are used by different groups; frequently touched surfaces being cleaned more than</p>	<p>Enhanced cleaning is ongoing.</p>
<p>NHS test and trace/ PHE</p>	<p>We will engage with NHS Test and Trace as necessary and UKHSA. We will ensure that staff, parents/carers understand that they will need to be ready and willing to: book a test if they are displaying symptoms; provide details of anyone they have been in close contact with if they were to test positive for coronavirus or someone who tests positive.</p>	<p>We will call PHE when we reach 5 or more students in a company tutor group or teaching class. We will contact parents of children in this group and inform them if this threshold is reached and advise to take a LFT for 5 days. We will also do this with the class teachers.</p>

LFT Testing - Students	Lateral flow testing (students) - students will be offered home testing. LFT kits will be given to students and will include enough tests for two weekly tests. We have asked for results to be communicated to us, in the event of a positive test we will follow the actions set out in this risk assessment. Upon a positive LFT test the staff member will need to isolate according to the isolation rules above. Students with parental consent will test on return to school in our test centre.	The medical room will offer lateral flow testing to students with symptoms if we have parental consent and we will confirm with a telephone call. In the event of more than 5 students in a form or group testing positive then we will ask all members of the group to take a LFT for 5 days. Update December: on return to school in January - all students will be tested on site.
LFT Testing - Staff	Lateral flow testing (staff) - staff will be offered home testing. LFT kits will be given to staff and will include enough tests for two weekly tests (Sunday and Wednesday evening). Results will be communicated to us, in the event of a positive test we will follow the actions set out in this risk assessment. Upon a positive LFT test the staff member will need to isolate according to the isolation	In the event of more than 5 students in a form or group testing positive then we will ask their teachers and TAs to take a LFT for 5 days.
Examinations	Candidates and invigilators will not be expected to wear face coverings during exams and assessments, but only on arrival and departure. Both candidates and	This applies to public exams and mocks.
